**Policy on Cheating:**

**If you are found to have violated the honor code (see below), by both the honor code council and myself, you will automatically fail the course!**

**Electronics in the Classroom**

---

**You also cannot use any form of electronic device during Group Assignments (it defeats the purpose of working together). If you use them on those days, you will automatically receive a zero for that day's assignment.**

**In-class Problems**

It is important to understand how to apply concepts as we cover them, so you will have the opportunity to work on some problems in class (in pairs or small groups) almost every day. These will be collected and add to your Group Assignments grade

**Group Assignments**

These cooperative learning exercises (detailed above) are extremely important. The group assignment dates are listed in the course outline. It is important not to miss these days without an excused absence.

**Software**

We will utilize Microsoft Excel for the data analysis in this course. Excel is available in all campus computer labs, including the lab in the basement of the Economics building.

**Attendance Policy**

There are many studies showing a clear relationship between class attendance and student achievement. There is no strict attendance policy for this class, but we do in-class problems nearly every day and these problems are often similar to those found on exams. I will take

**Exams and Grading:**

Group Assignments	10%
Exam I	19%
Exam II	21%
Exam III	24%
Final Exam	26%

**Incompletes, Extra Credit, etc.**

I adhere strictly to the University guidelines on Incompletes (“An I is given only when students, *beyond their control*, have been unable to complete course requirements. A substantial amount of work must have been *satisfactorily completed* before approval for such a grade is completed.”).

Bad grades, unsatisfactory performance, too many credit hours, work conflicts, etc. are not reasons for an incomplete.

A detailed outline of important dates is posted separately.
