

Infrastructure and Sustainability

UNIVERSITY OF COLORADO **BOULDER**

To deliver and maintain a safe, sustainable and resilient infrastructure that enhances the university's operations and enables our campus community to meet its mission of education and research.

We enhance the university experience through innovative service delivery, customer service, stewardship of resources and community engagement.

Together we accomplish our goals and objectives guided by our collective core values:

We value working together to create and maintain a culture of mutual respect, trust and optimism for the future, with a goal of shared success and accomplishment.

We want our employees to enjoy their work and will create an environment that channels their energy, strengths and optimism into making a difference every day.

We operate in an accountable, professional, ethical and honest manner toward our work, peers and the university community.

We value our employees and provide the resources and tools necessary to successfully support our university constituents. An empowered workforce is diverse, inclusive, engaged and creative.

We listen to our customers and focus on building relationships through trust, confidence, professionalism and performance.

We implement progressive strategies to instill a culture of safety within all operations at the university to improve the safety, health and well-being of the campus.
